Several members of the Kibbutz were abducted by Hamas to Gaza. To this dentist's clinic in the Kibbutz injured members of the Kibbutz were evacuated. In the clinic were a young paramedic woman Amit Mann (22), a nurse and a doctor, who tried to treat the injured and save lives. The young paramdic texted her family and sent voice messages that were published, in which she describes to her family what's going on, with the injured and with the terrorists in the area. Amit was under siege for 6 hours, hoping to be rescued but was finally murdered.
