Title
Avian Flu In Brazil
Creation date
20250528
Caption
The sale of chickens occurs in a market in the East Zone in Sao Paulo, Brazil, on April 28, 2025. The Ministry of Agriculture and Livestock (Mapa) updates to 24 the number of countries that adopt restrictions on the import of poultry meat from Brazil due to the detection of an outbreak of Highly Pathogenic Avian Influenza (HIAAI) in the municipality of Montenegro (RS).
