July 31, 2025 - Rotterdam, The Netherlands: A protester wears a Palestinian keffiyeh as a symbol of solidarity while banging a pot during the demonstration. Hundreds of citizens gather outside the central train station in a coordinated but privately circulated protest, banging pots, pans, and dishes in a deafening call against the genocide of the Palestinian people. Empty food plates spelling out 'Free Gaza' and bags of flour are placed on the ground to symbolize the starvation killing thousands of children. Palestinian flags wave as Europeans raise their voices against what they call unbearable injustice, (Maro Kouri/Polaris) (FOTO:DUKAS/POLARIS)
