Caption

October 12, 2025 - HEBRON, WEST BANK, Palestinian Territory: Israeli settlers, backed by army forces, attack a group of Palestinian and international activists taking part in an olive-harvesting event in the village of Soba, south of Hebron, alongside Palestinian Minister of the Wall and Settlement Affairs, Muayyad Shaaban. Settlers assaulted participants as Israeli soldiers forced them to leave the area, preventing them from continuing the harvest — part of the ongoing harassment of Palestinian farmers during the olive-picking season in the West Bank.
