Alex getting close to a whale whilst free diving

Freediving - Sep 2015

FULL BODY:

Two French freedivers and photographers have taken an incredible selection of photos whilst diving with underwater wildlife.

From whales to stingrays, turtles and sharks, Alex Voyer and Alex Roubaud have been free diving for over 10 years.

Alex Roubaud says: "Freediving is not a dangerous activity as we respect the elementary rules of safety, and diving with a buddy is the first and vital rule! Working together is essential for us."
