You won't believe your eyes when you see the work of artist Stefan Pabst.

The 35-year-old creates jaw-dropping 3D illusion art and photorealistic portraits of famous faces.

His work ranges from spine-chilling spiders that appear real enough to touch to stunning drawings of stars including Scarlett Johansson and Angelina Jolie.

Stefan uses a range of paint brushes for what he calls '3D drawing' using the trompe l'oeil technique; a French term literally meaning "trick the eye".
