Caption

(160421) -- PORTOVIEJO (ECUADOR), April 21, 2016 (Xinhua) -- A staff member of ECU 911 works in Portoviejo, Ecuador, April 20, 2016. ECU 911, the nationwide integrated system for emergency responses, designed and built by China National Electronics Import and Export Corp., connects Ecuador's various security and disaster relief agencies from the police, fire department, transportation and paramedic units to the Red Cross, so as to facilitate emergency response. In the ECU 911 headquarters in Quito, over 20 Chinese engineers, along with their Ecuadorian colleagues, work day and night to ensure this life-saving system runs well.
