Title

NEWS - ExoMars: 'Schiaparelli' schweigt

Creation date

20161019

Caption

Oct 19, 2016 - Germany - ExoMars 2016, a joint mission of the European and Russian space agencies, consists of an orbiter and a lander that arrived at the red planet on Wednesday. The Trace Gas Orbiter pulled in around Mars as planned, with cheers and fist pumps at the mission confirmation center in Darmstadt, Germany. Pictured: March. 2016 (FOTO: DUKAS/ZUMA)
