Title

Israeli artillery firing on Gaza

Creation date

20231031

Caption

EXCLUSIVE: October 31st, 2023 - South of Israel: IDF reserved self-propelled artillery forces close to the border with Gaza shooting rockets to protect IDF forces inside Gaza fighting Hamas terrorists. Since IDF began shooting artillery names of murdered victims and other messages were written on the rockets before shooting them to Gaza. These rockets have names of murdered on them. Starting early in the morning of October 7th, missiles were shot to Israel from Gaza while Hamas terrorists invade Israeli settlements around Gaza, murdering and kidnapping hundreds, including hundreds of young participants at the outdoor party Nova. Casualties count thus far is more than 1,400, injured - more than 4,000, abducted - more than 240 soldiers and civilians, missing more than 100 people. (Ziv Koren/Polaris) (FOTO:DUKAS/POLARIS)
