Creation date

20250421

Caption

File photo - Pope Francis inaugurated on December 13, 2019 in Rome, Italy the new Vatican headquarters of 'Scholas Occurrentes', a pontifical organization involved in education in 190 countries around the world. The foundation, a benefit Organisation, whose name means "schools that meet" in Spanish, links technology with the arts, aiming at social integration and a cultural of peace. Francis had created a similar organisation when he was Cardinal Jorge Bergoglio in Buenos Aires, but Scholas has now become an international foundation working out of the Vatican. -- Pope Francis died on Easter Monday, April 21, 2025, at the age of 88 at his residence in the Vatican's Casa Santa Marta.
