Secondary and university students in Catalonia call for a strike and mobilizations in response to the detention of the Flotilla Global Sumud, an international initiative aimed at breaking the Israeli naval blockade on Gaza. The ships, carrying activists and humanitarian aid, seek to provide direct support to the Palestinian population. The detention of the vessels triggers new displays of solidarity worldwide, and Catalan students join with a day of protest to denounce the situation in Palestine and advocate for the right of Gaza's population to live freely in Barcelona, Catalonia, Spain, on October 3, 2025.
