Title
Full Beaver Moon In The Netherlands
Creation date
20251105
Caption
The largest full moon of 2025, a supermoon know as Beaver Moon rises over the city of Eindhoven, the Netherlands behind buildings, illuminated apartments and balconies on November 5, 2025. The Moon or Luna or Selene is an astronomical body, the natural satellite of Earth, orbiting around the planet. (Photo by Nicolas Economou/NurPhoto)
