Stephen Davies' 'Team UnLimbited' shed in Swansea. After being born with one hand, he noticed the huge number of children worldwide unable to afford an artificial arm and so created Team UnLimbited, which designs, prints, builds and delivers 3D printed hands and arms to children completely free around the world. The shed is lined with photos of children from all over the world that he has helped. His shed is an entry for woodcare brand Cuprinol's 2018 Shed of the Year competition
