Picture MUST credit: Buttres Pillow

Here's a way to get to the bottom of a good night's sleep. It's a new comfy pillow shaped like a human rear. The Buttres Pillow is shaped just like a curvy backside and comes in blue, black and grey. The US-based team behind from Philadelphia, it say it's great for "all types of sleepers as well as butt slappers, squeezers, caressers and face-buriers". It's made from 100 per cent natural materials, making it biodegradable, too. The \$69 USD / €60 Euros / £54 GBP / foam-filled pillow is said to be "soft but supportive with a feeling like butts." It added: "The 'sweet spot' between the thighs and cheeks will gently cradle your head and support the neck." Great for side sleepers, back sleepers and stomach sleepers. "It can also be used for a power nap on a desk.

OPS: The Buttres pillow
