Luxury British car maker Rolls Royce has created special accessory for champagne lovers. It's a leather and wood chest that opens at the touch of a button to reveal the finery of a perfectly appointed champagne set for four guests. With a price tag of £37,000 GBP / €42,357 Euros plus tax. The exterior lid metamorphoses into an oak serving tray with a laser-cut stainless steel inlay. Four cotton napkins with finely embroidered 'RR' monograms are discreetly hidden under the lacquered table. It was created by the company's House of Rolls-Royce which makes bespoke accessories. The chest is illuminated from the central bay, presenting four hand-blown crystal champagne flutes arranged to evoke memories of a V12 engine.
