Title
Bad Drivers on the M25
Creation date
20100913
Caption
13th September, 2010: Bad Drivers on the M25 near South Mimms, Herts. All of these images were taken in a one-hour period on what is Britain's busiest motorway. What makes these images even more shocking is that ALL of these vehicles were traveling at between 60mph-70mph (96kph-112kph).
