Title

NEWS - Abholzung und Wildtierwelt auf Borneo

Creation date

20190820

Caption

A silver Leaf monkey stands on the artificial branch with her baby at Labuk bay, on August 5, 2019 near Sandakan city, State of Sabah, North of Borneo Island, Malaysia. Palm oil plantations are cutting down primary and secondary forests vital as habitat for wildlife including the critically endangered silver monkeys. Photo by Emy/ABACAPRESS.COM (FOTO: DUKAS/ABACA)
