Caption

(110524) -- YICHANG, May 24, 2011 (Xinhua) -- Photo taken on May 24, 2011 shows a ceremony marking the functioning of the No. 32 turbine generator at the Three Gorges' underground power station in Yichang, central China's Hubei Province. The No. 32 turbine is one of six 700,000-kilowatt turbine generators designed to be installed on the underground power station, which are expected to put into use within two years.
